justin.ho05072005@gmail.com

Motivated student completing a bachelor of science software engineering degree. Committed to learning and developing skills in computing software and team contribution with hands-on learning and development work. Self-sufficient while being a collaborative thinker. Adept to rapidly changing work environments and finding the best course of action.

EXPERIENCE

Ladyfingers Cakes, San Leandro, 94577 – *Retail Sales Representative* 08/2020 – 09/2023

- Provided personal customer service through answering questions about 40 different products and their ingredients.
- Gave recommendations on pre-planned events that required large catering and arrangement ahead of time.
- Offered consultation about large cake orders and answered all questions related to pricing and sizing
- Welcome customers and complete their request in a sufficient manner.
- Arranged different cakes and cupcakes to be displayed in a fashionable manner to increase sales.
- Managed and recorded all transactions including purchasing and refunding to increase customer satisfaction and accurate sales.

Extracurriculars

QXQ'S INTRODUCTION TO QUANTUM COMPUTING 09/2021 – 04/2022

- Completed a 8 month program which provided an in-depth introduction to quantum computing, quantum mechanics, and coding with Qiskit.
- Elaborated and researched the usability of quantum computing for real world cases.
- Worked with Javascript in conjunction with qubits in order to enhance computing power and strengthen cybersecurity.

KIPP KING ROBOTICS 08/2022 – 06/2023

- Created an interactive website for students to keep updated with the Robotics Club by leading a team of web developers.
- Managed social media coverage through Instagram, Tiktok, Facebook to increase awareness for fundraisers and events related to Robotics Club.
- Programmed a robot using Java in conjunction with WPILIB to move and complete daily tasks.
- Participated in the FIRST Robotics 2023 San Francisco Regional, achieving efficient completion of competition tasks with the team's robot.

KIPP KING KEYCLUB 08/2019 – 06/2023

- Collaborated with schools within the Keyclub division to coordinate service events for members' involvement.
- Managed and supervised club members' participation in various volunteer activities, accumulating over 50 hours of service at events such as festivals, night markets, parks, food banks, and marathons.
- Maintained open communication with the Kiwanis executive team, providing regular updates on the club's status and activities.
- Committed over 75 hours of services to fostering a positive and constructive community
